

## Producer Bulletin

GeoVera Specialty utilizes information from Marshall & Swift/Boeckh, who is a leading supplier of local building cost information, to value our insured (or quoted) residential property. We periodically review this data and as a result will be updating the data in our system. This update will be effective for new business quoted on or after 1/15/10 and renewals 3/21/10 and later.

**SPECIAL NOTE:** Please keep in mind, if an existing quote is altered after 1/15/10, the risk will be re-quoted using the new valuation data.

These updates will result in average increases as shown on the table below:

### Homeowners Insurance

Average AOI Increase by State	
VA	7.47%
